The frequency of recurring payments can be weekly, bi-weekly, monthly, semi-monthly, quarterly, semi-annually and annually.

How do I find my recurring payments?

Recurring payments are viewed by selecting View Payments. To view recurring payments:

1. Click the payee name link. A popup screen appears showing the recurring payee name, account number, process date, confirmation number, payment status (i.e., pending-recurring), Payment frequency, and final payment date.

How do I check the status of a payment?

Bill Payment tells you the status of your payment on the View Pending and History Payments page in the Status column. Please refer to the Status definitions for more information.

What does payment status mean?

Payment Status indicates:

1. A payment that is pending,
2. A payment that has been sent.

Examples of payment status:

1. A single payment that is scheduled to be paid is shown as *Pending-Single*
2. A recurring payment that has not been paid is shown as *Pending-Recurring*
3. A payment that has been paid is shown as *Payment Sent*

How do I edit a pending payment?

To edit pending payments:

1. In the View Payments screen, click the checkbox next to the payment to be changed.
2. Click on *Edit Payments*. The Edit Payment screen appears.
3. Click the appropriate field and enter the changes.

Note: *If the payment is a recurring type payment, the Change Date button will be seen. If the payment is a one-time payment, the Change Date button will not be seen.*

4. Once the changes are correct, click the *Edit Payments* button.

What does Estimated Total refer to?

The estimated total figure refers to the cumulative total amount for pending payments only. Totaling begins by adding the first payment to the next pending payment (by date), then to the next and so on. The total amount of all pending payments is shown in green. The 'Estimated Total' value assumes no payments will be edited or deleted and payment dates (pending and recurring) will be maintained.

How do I transfer funds?

Currently there is no method to transfer funds between accounts using Bill payment.

What description will show on my account history?

The ACH descriptor on the account history gives specific information about the payee name, ACH post date and the amount paid, which helps avoid confusion associated with unused check numbers.

How do I view my history payments?

Payment history is viewed in the View Payments screen. When first viewed, payments for the past 15 days pending payments for the next 30 days are shown. For additional payment history:

1. Enter a new date range using the Next Payment Date Range fields.
2. Click on the Next Date Range button.

How far back can I view historical payments?

At least six months of payment history can be viewed online. The Bill Payment processor maintains payment history for up to seven years.

How quickly is Bill Payment updated when a new payee is added or when a payment account number is changed?

When you update payee information, the new information is available immediately.

Are annual summaries including amounts paid by category or payee provided?

No special reports are included with the Bill Payment service.

Can I use Bill Payment with all my accounts?

No, only a single checking account may be used for payments.

When is Bill Payment available?

You may schedule payments 24 hours a day, seven days a week.

How are Bill Payment transactions reflected on my checking account?

All Bill Payment transactions are reflected as an ACH debit on the account statement.

How much is Bill Pay?

How do I change a payee's information?

Only the Nickname and Account Number may be edited once a payee is set up. To edit these items:

1. Select Payees and your list of payees appear.
2. From the Payee list, select the checkbox to the left of each payee to be edited.
3. Click the Edit Payees button and information on selected payees appears.
4. Fields for Account Number and Nickname contain the current description - edit fields you want to change.
5. Click the Submit button and a confirmation page appears with the updated information and a status indicating whether the change was successful or not.
6. Clicking the Continue button brings you back to the Payees page where you can confirm the change.

In order to change the name and/or address, the current payee must be deleted and a new payee added (all pending payments must be deleted first). Please refer to the FAQ above for more information on deleting payees.

What happens if the payee name changes?

If your payee changes names, send the new payee name via E-mail to the Bill Payment processor. Payee name changes will be updated by the Bill Payment processor.

Why do I get the Duplicate Payment Warning?

Duplicate Payment warnings are caused by scheduling a payment on the same date, for the same amount, and to the same payee. The system will not allow you to schedule duplicate payments.

If I receive an error message while scheduling payments, how can I be sure the payments are actually scheduled?

Return to the View Payments screen and verify your payment has been scheduled. From the View Payment screen, you may edit, delete, or re-schedule your payment(s). Make sure that you are viewing the relevant date range.

How do I schedule recurring payments?

To schedule recurring payments:

1. Click the Schedule Payments button, the Schedule Payments screen appears showing current payees.
2. Click the checkbox next to the payee to receive recurring payments.
3. Click on the Amount field, then type in the amount of the payment. Do not include a dollar sign or comma.

4. Press the Tab key or click the Recurring Date button, the Payment Date screen appears.
5. Select the frequency of payment from the appropriate Payment Date drop-down menu.

Note: *Entering payment data into any field causes the associated payment type to be selected. For example, selecting Monday from the drop-down box in the weekly field will cause the recurring payment radio button to be selected. Likewise, entering a date into the single payment date field causes the single payment radio button to be selected. This is done to provide visual feedback to the user of what type of payment has been selected.*

6. In the Final Payment Date field, enter the date of the last recurring payment. Use the Tab key to navigate through the date fields.
7. Click the *OK* button, a Payment Confirmation screen appears indicating payment was successfully scheduled.

How do I skip a recurring payment?

2. In the fields under Next Payment Date Range, enter the "From" and "To" dates for the pending payment.
3. Click the Next Date Range button, all pending payments falling between these selected dates will be displayed within the View Payments screen.
4. Click the checkbox next to the payment to be deleted.
5. Click the Delete Payments button, the payment will be deleted from the view payment summary.

Reschedule the new payment.

What happens if sufficient funds (Non-sufficient funds or NSF) are not available in the account used for bill payment?

If a 'non-sufficient funds' condition exists, the debit will be returned via banking channels. The ACH return will prompt the system to block your bill payment account, preventing you from making more bill payments until the NSF condition is resolved. Any future dated recurring payments scheduled for release during the time the account is blocked will not be sent.

Can I use Microsoft Money or Quicken to pay bills?

No. Bill payment does not support Microsoft Money or Quicken.

Can I use Bill Payment internationally?

Bill payment provides you with peace-of-mind when you are traveling for an extended period of time. If you have Internet access with a secure browser, you may pay your bills while out of the country. Payments may only be made to payees within the fifty United States and territories.

Yes, you are limited to one Bill Payment account.

When are funds debited from my checking account?

On the process date, the Bill Payment processor generates an ACH debit (in the amount of the bill payment) to your checking account. Your checking account will be debited within two banking business days.

What do payees actually receive?

Electronic payees receive payment information in an electronic format that credits their account. Non-electronic merchants or individual payees receive a laser-printed paper check sent through the U.S. Postal Service.

How do I know which account my bill payments are made from?

Please contact your Marine Bank of the Florida Keys for this information.

When may bill payments be scheduled for processing?

The Bill Payment processor processes payments on all days excluding Sundays and Federal Reserve Board recognized holidays. In cases where a payment gets scheduled on

a Sunday (this can potentially happen on a recurring payment), the payment is processed on the day before (Saturday). If you happen to be setting up the payment on this particular Saturday, the bill payment will be processed on the next banking business day. Also, please note that weekly recurring payments may not be scheduled on Saturdays.

How is the payment deducted from my checking account?

The payment is deducted by direct ACH debit.

Are payments made electronically or by check?

Payments are made either by paper check or electronically by ACH credit. The method employed on any single payment depends on whether the Bill Payment processor has established an electronic payment relationship with the payee and they are found on the electronic payee database.

Who can be paid using the Bill Payment user interface?

Anyone in the fifty United States and territories who can accept a check, with the exception of tax payments (such as federal, state and local), court-directed payments (such as alimony and child support) and any other government related payments.

Can I pay my bills on the weekend?

You may set up your payments during the weekend. However, Bill Payment prohibits you from scheduling a single payment and the first of a recurring payment on the same weekend. This is because payments scheduled for Sunday are processed the day before. Therefore, when scheduling payments on a weekend, the first day you may schedule payments (single payment or the first of a recurring payment) is the first business day following the weekend.

Each bill payment is debited separately.

Explain the timing of payment debits and credits.

All debits and credits are sent out (at the same time) on the process date you designate.

Does the Bill Payment processor use a "process date" or "due date" processing model?

The Bill Payment processor uses the 'process date' model. Under the process date model, payments are initiated on the process date you designate. Special rules govern when payments are processed for particular days, so please refer to the Schedule Payments/Bill Pay Help section. The process date model is advantageous because it reduces confusion about the timing of the payment debit and when payees are in receipt of payment.

Does the Bill Payment processor have payment amount limits?

The Bill Payment processor has a payment cap of \$ 9999.00, regardless of how the payment is disbursed. The Bill Payment user interface limits the entry of payment amounts greater than this amount.

If I select an erroneous electronic payee and this causes a posting delay and late charge, what is the process and who bears the burden of the late charge?

If you select an electronic payee address that matches your payment coupon exactly and the Bill Payment processor routes the payment to a different payment center, the Bill Payment processor is responsible for the late charge and will reimburse any payee-imposed late fees, up to \$50.00. If you select an electronic payee with an address that is different from that indicated on the payment coupon, you are responsible for the late charge. You always have the option to manually set up a payee with the (correct) address found on the payment coupon.

How do I place a 'stop payment' on a bill payment?

A payment may be edited or deleted anytime before the payment is processed. For stop payment requests initiated after processing, you must contact the Bill Payment processor Customer Support. Payments remitted electronically cannot be stopped.
